Once logged in, you can follow these **example** steps to find **Tracks** by Equipment Manufacturer and Model:

1) Click on Track picture. (or ITEM then INVENTORY)

2) Click on the letter of the equipment manufacturer (i.e. "**B**" for Bobcat)

3) Click on the equipment manufacturer (i.e. **BOBCAT**). You will see all the equipment model numbers we have entered in our system, (NOTE: We are continually updating. If there is a specific model you are looking for but do not see contact us and we will look into it.)

4) Scroll down and Click on the **Model Number** you are seeking (i.e. **T190**). You will see the various track patterns (and widths) that are available, as well as the quantities in stock in our three distribution centers.

5) Click on the **Product Number** on the left side and you will see the inventory available, shipping weights, net prices, and a larger image of the track that can be shared with customers.

To effectively quote tracks, gather the following info. from the customer:

1) **Manufacturer/Model** (i.e. BOBCAT T190)

2) **Track Width** (Some models have multiple widths. i.e. 450,400,320 mm). (450mm = 17.72", 400mm = 15.75", 320mm = 12.60")

3) **Pattern** (Some have multiple options: "Block", "C", and "Z" patterns.)

Once logged in you can follow this **example** for **Tires:**

1) Click on Tire picture. (or ITEM, then INVENTORY)

2) Use filters on the right to narrow search.

3) You will see the various options including availability in our 3 distribution centers.

4) Click on the blue **Product #** on the left side and you will see product availability, shipping weights, net prices, and a larger image of the tire that can be shared with customers.

(NOTE: If you get too many filters you may need to click the button to start over.)
